# illustrator PORTFOLIO

I'm Linda, an Italian-born illustrator currently living my best life in London.

I specialise in creating whimsical, colourful illustrations for children's books, bringing characters to life in a way that sparks imagination and fosters a love for stories. My greatest passion is helping young readers develop a lifelong connection to books through art.

I studied fine arts, design, and photography in Milan, Italy, and later specialised in illustrating children's books at the London Art College.

I have a background in graphic design, which has provided me with a strong knowledge of book layout and design, text formatting, and creating print-ready files.

I also worked as an Early Years Educator, an experience that helped me understand how children read and engage with stories. This insight enables me to create books that are truly tailored to a young audience.
